INTRODUCTION

Problem

We noticed that most people want to learn how to design websites but don't know where to start or even don't know anything about programming, and what specific languages are important for website programmers.

Solution

By developing a WSD website, you will: learn what are the basic languages for programming websites, be able to easily experiment with simple codes, learn the advantage of code or how each language works and its impact on the site, communicate with experts to enhance your understanding.

Programming

HTML </ >

.js PHP

SIMILAR PROJECTS ANLYSIS

W3Schools

W3Schools is optimized for learning, testing, and training. Examples might be simplified to improve reading and basic understanding. Tutorials, references, and examples are constantly reviewed to avoid errors.

W3Schools website

- it is not dedicated to one language.

- it helps people who want to learn a programming language.

- can practice code itself on the editor.

what makes us different?

- providing external sessions for students via zoom meeting.

- presenting workshops.

W3resource

It is a platform that explains most of the programming languages, in addition to the possibility of trying programming exercises.
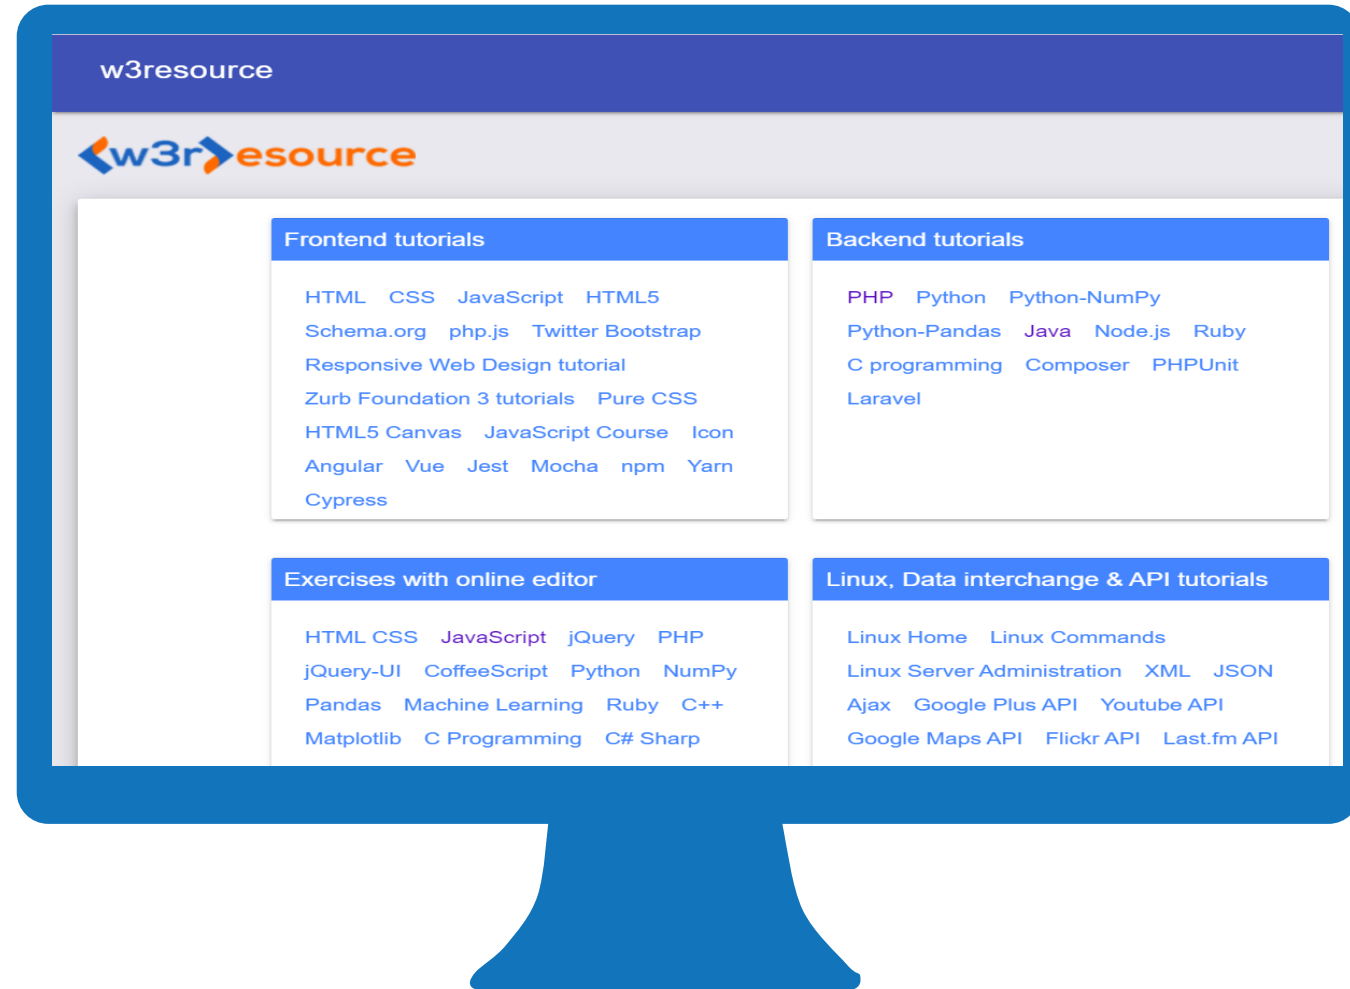

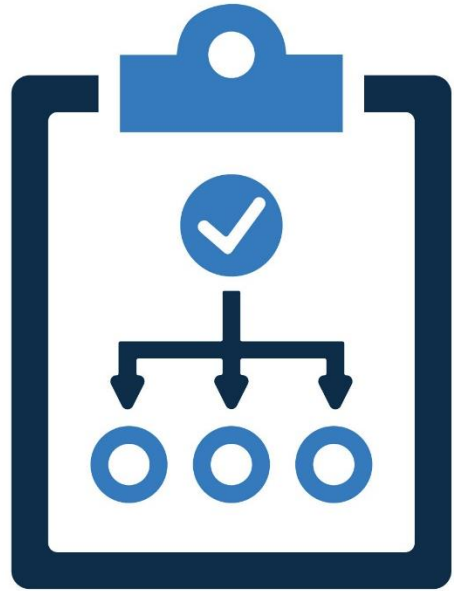

W3resource website

- Provides a tutorials for programming languages

- Exercises with online editor.

what makes us different?

- On the WSD website, you can take a quiz after each lesson to check your understanding.

- User will find the possibility of booking an expert and talking to him face to face.

- user can book a workshop with different expert and different programming topics.

- We have a search box that makes it easier to use our site.

Workflow

First Enterprise feature

Admin

Upload Lessons

add a workshop

Admin can upload materials

Appointment Booking

admin can add a workshop

Add quiz

check if there any request to accepted

Receive reminder notification before the workshop

open live session with the student

Second Enterprise feature

Users

Booking

Signup / login

Lessons

Editor

Enroll in workshop:

book for session

View the available workshops

fill form information about booking

users can follow lessons

Quiz

After watching the lessons, he can apply the codes.

register in a workshop

book session

comments

the users can test himself after watching the lessons.

Receive an email whenever the appointment is booked.

joining live with the expert.

users can write comments on the lessons if the lessons are useful or not.
